

## WEST SUSSEX WARD PROFILE

This profile provides up-to-date information on various aspects of the population in West Sussex. Data is provided for wards and districts as well as county and national figures for comparison. Data on the Index of Multiple Deprivation is only available at small area level

### How to use the profile:

Select the ward you are interested in from the drop-down box below. You can also select another area for comparison. The profile will provide all the information available for those areas including district data relating to the first ward selected. For ease of use, select the tab on the right for information on that particular topic or click on 'Back to top' to return to the beginning of the profile

Pension Credit - % as a proportion of females over 60 and males over 65, Employment and Support Allowance (ESA) - % as proportion of working age population (16-64 years), Attendance Allowance (AA) - % as proportion of residents aged 65 years and over, Incapacity Benefit (IB) - % as proportion of working age population (16-64 years), Disability Living Allowance (DLA) - % as proportion of total population

**Index of Multiple Deprivation** (Source: DCLG)

[Back to top](#)

**Index of Multiple Deprivation (2010)** - Measure of relative deprivation at small area level. IMD consists of 38 indicators that have been grouped into 7 domain, which are income, employment, education, health deprivation and disability, barriers to housing and services and living environment deprivation. There are two supplementary indices - Income Deprivation Affecting Older People Index (IDAOPI) and Income Deprivation Affecting Children Index (IDACI). Domain for each ward is scored and ranked (1-10 nationally). A high score corresponds to a low rank (low rank = higher level of relative deprivation)
