Mapping

West Sussex County Council has rolled out access to Parish Online to all Parish Councils. This means all Parish Councils have access to the OS mapping that Chichester District Council use. If you have any specialists that can use this software then you will be able to reproduce maps and plans; however, officers can still offer support. To register for free, please visit [Parish Online](#).

West Sussex County Council

The first point of contact for Neighbourhood Planning issues should be the relevant [Principal Community Officer](#).

Transport and Highways
