

## The City of Chichester Local Buildings List

---

Bus Garage  
Basin Road  
Chichester  
West Sussex  
PO19 1SB

---

### Additional Information

- Designed by engineers Alfred Goldstein and R. Travers of Morgan & Partners.
- Very good example of a thin shell pre-stressed concrete roof providing a clear span and unobstructed floor space.
- Of great engineering interest particularly for its slab roof which is unusually thin for the period (1956).
- Reflects the golden age of bus and coach travel in the 1950s (Chichester was a staging post for the South Coast Express).
