in large print format

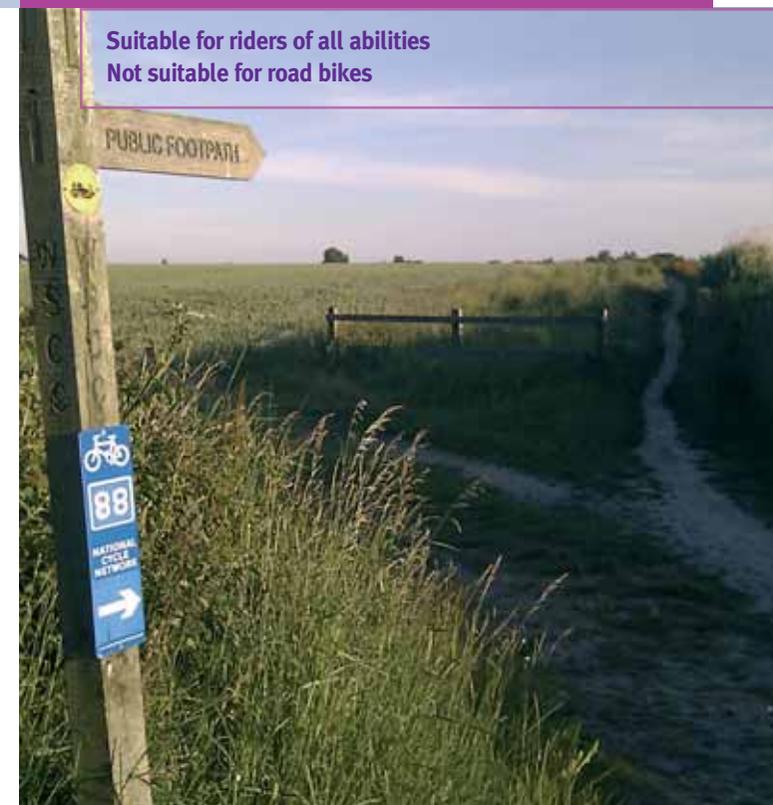

Details correct at time of going to print.
Please be aware routes are shared with other users (vehicles, pedestrians, dogs, horses etc). Users of the cycle routes and leaflet series do so at their own risk. We do not accept any responsibility for any loss, damage or injury, howsoever caused, arising directly or indirectly from use of this leaflet. Please consult Directgov for information on appropriate safety equipment and safe cycling

Bill Way

Market Cross to Pagham Harbour
flat terrain

Suitable for riders of all abilities
Not suitable for road bikes

fact

Pagham Harbour was declared as a Local Nature Reserve (LNR) in 1964 and is almost 600 hectares in size with around 280 hectares of salt marsh and tidal mudflats.

fact

Chichester Ship Canal was opened in 1823. One of the regular cargoes on the canal was gold bullion from Portsmouth to the Bank of England. Water voles are a protected species and have been seen in the canal.

fact

The Reserve is surrounded by many habitats including shingle, open water, reed swamp and wet permanent grassland. There are many rare species of fauna and flora in the Reserve including seals, wasp-spiders, herons, shrews, voles, butterflies along with many species of breeding and migratory birds.

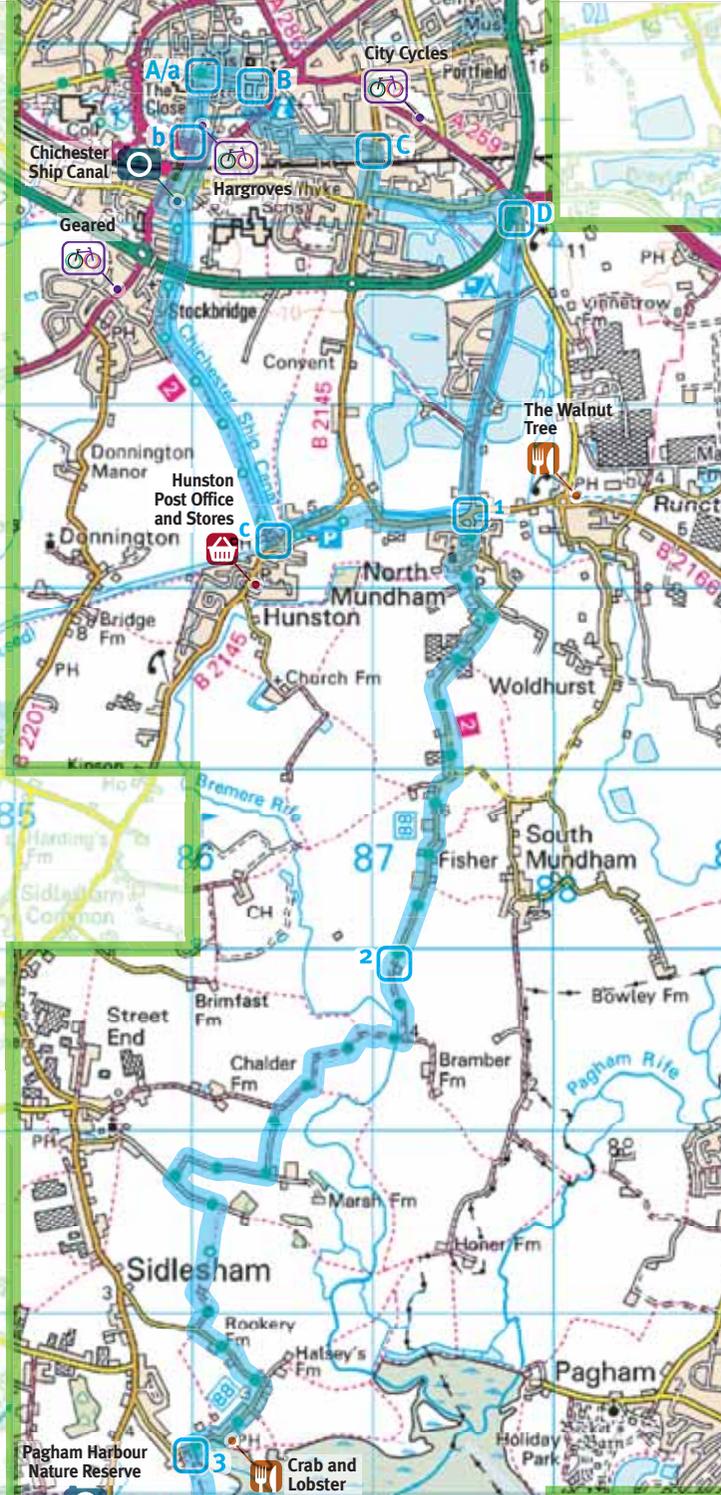

There are 2 alternative routes to get to point 1, follow either a,b,c or A,B,C,D.

- a** Start at the Market Cross and follow the cycle route along South Street on road. Be careful, as there can be heavy traffic.
- b** Follow the one-way system bearing right along Basin Road towards the canal basin and turn left onto the cycle route to Hunston. Here the route is a designated cycle path.
- c** At the Hunston bridge, follow the cycle route left towards North Mundham on road ignoring the cycle route sign to Hunston.

- 1** Take care crossing into Church Road at North Mundham indicated as blue cycle route 88. Continue for approximately 2km.

- 2** At the end of Fisher Lane, the route continues on a mostly clay track with some minor roads and concrete. There are a series of gates and cattle grids and grazing animals from here to Pagham Harbour.

- 3** Turn left onto Rookery Lane and follow into Mill Lane passing the pub. Cycle round the harbour turning left off Mill Lane following a narrow cycle path shared with pedestrians to the Nature Reserve. Please take care.

- A** Start at the Market Cross and follow the cycle route along East Street. Cycling restrictions apply between 09.00 and 17.00.
- B** This part of the route is on road and there can be heavy traffic. Turn right onto St John's Street. Cross Market Avenue and turn down Caledonian Road following cycle route signs to Bognor Regis.
- C** The route turns right onto Lyndhurst Road, crosses Whyke Lane and left onto Cleveland Road. At the end of Cleveland Road, turn right onto Whyke Road and turn left onto Quarry Lane. At the end of Quarry Lane, cross the A27 using the footbridge giving way to pedestrians.
- D** Follow the cycle route south along Vinnetrov Road and turn right following the blue cycle route signs through the Lakes and along School Lane.

fact

There have been four major reclamations of Pagham Harbour to secure land for agriculture and reduce erosion however, during storm periods, the sea breached defences and it was decided to leave the land as a tidal inlet.

fact

Did you know? At one point Selsey was an island, Seal Island.
